UPNEEQ (oxymetazoline hydrochloride ophthalmic solution) 0.1%, for topical ophthalmic use

Read this Instructions for Use before you start using UPNEEQ and each time you get a refill. There may be new information. This leaflet does not take the place of talking to your healthcare provider about your medical condition or your treatment with UPNEEQ.

UPNEEQ single patient-use container after removal from its individual foil pouch until you are ready to use UPNEEQ.

Important Information You Need to Know Before Using UPNEEQ

• UPNEEQ is for use in the eye. Do not use it in other parts of your body.
• UPNEEQ is supplied as single patient-use containers individually packaged in foil pouches. Do not remove a single patient-use container from the child-resistant foil pouch until you are ready to use UPNEEQ. Each single patient-use container contains enough medication for two times daily use for one day.
• Do not get UPNEEQ into your mouth or in any other surface, in order to avoid eye injury or contamination of the ophthalmic container.
• Protect UPNEEQ from extreme heat.
• Keep UPNEEQ and all medicines out of the reach of children.
• Do not apply a single patient-use container from the child-resistant foil pouch until you are ready to use UPNEEQ.
• Do not apply more than the single patient-use container from the child-resistant foil pouch.
• Do not discontinue or change your dose of UPNEEQ.
